Vernal, UT 84078

RE: ML 49565-MP

Dear Mr. Simpson:

It has come to the attention of the Trust lands Administration that some of the stone which you gathered last year has been placed upon pallets located within the SW4SE4 of Section 32, T5S, R22E. This subdivision is outside the boundary of your permit ML 49565-MP, which covers only the SE4NW4 and NW4SE4 of said section 2.

Quarrying, gathering, palletizing or stockpiling of stone outside of the boundaries of your permit is considered a trespass of state trust lands. You are required to move the palletized stone to inside of the permit boundary and submit a written accounting of such inventory to the Trust Lands Administration. Alternatively, you may abandon the palletized stone by removing it from the pallets and leaving it lying within the SW4SE4 of Section 2, at a site agreeable to Mr. Paul Baker of the Division of Oil, Gas & Mining. Empty pallets must be removed from the property, however, and you would then have no further claim upon the abandoned stone.

Failure to act in this matter within the next thirty (30) days may result in a charge of trespass. Please write or call me if you have any questions.

Sincerely,

John T. Blake
Trust Land Specialist

CC: Paul Baker
